

## Consulting Services

For over 36 years FMS has helped retailers take superior control of their business by providing better and faster financial information, Industry Benchmarking and Best Practices. FMS' Business Process Outsourcing allow retailers to better focus on their customer and business while FMS focuses on the numbers.

### FMS Consulting Services

Our people come from the supermarket industry. FMS associates have over 2000 hours of operational supermarket experience from various supermarket companies. For over 35 years FMS has leveraged this operational experience to assist our clients in their success.

### What Our Customers Are Saying...

“The work flow process document highlighted very comprehensively, our current workflows, the deficiencies in our processes, and made recommendations for improvement. This was a very useful tool in achieving greater efficiencies in our accounting procedures, and with the implementation of the FMS software, resulted in significant time savings and timelier management reporting.”

- *HILO Food Stores*
