

FMS Client Spotlight

GES Inc., Edwards Food Giant Supermarkets
Paul Rowton, Vice President

“The ability to view invoice images online was a game changer for us”

FMS Work Scope:

AP, Accounting, Payroll, Invoice Indexing

Why FMS?

We chose FMS because of their comprehensive program designed exclusively for grocers. We liked the ability to combine different services that were being outsourced to a variety of vendors, all into one provider. The ability to view invoice images online was a game changer for us. We have expense and purchase information that can be viewed regardless of where we are at the time.

How has FMS increased your efficiency and profitability?

We have really found value in the budgeting tools that FMS provides to manage our business. As a growing small company, we are challenged when we acquire and/or remodel locations. The budgeting tools really allow us to monitor our expenses and stay focused on our profit goals, by location. The ability to get an in depth look at our progress monthly is very beneficial to our entire management team.

“I have truly enjoyed the opportunity to work with the leadership team at GES these past several years. It is very gratifying to play a small part in their growth and success. The scalability of the FMS offering has been a huge benefit in our relationship with GES and we look forward to growing our relationship with them.”

Jon Cline, FMS Vice President Client Support

FMS Commitment to Service:

Our Team at FMS does a great job of helping us manage some of the financial aspects of our business so that we can spend more time in the stores with our customers and associates.
