

FMS Client Spotlight

HAC (Homeland), Oklahoma
Al Friesen, Controller

“We saw FMS as the grocery industry leader...we are contacted every time FMS has a significant software upgrade with system downtime to insure that we do not have any scheduling conflicts”

FMS Work Scope:

General Ledger, Accounts Payable, Accounts Receivable, and Payroll.

Why FMS?

We saw them as the grocery industry leader with an overall robust comprehensive financial solution. Their software for reporting and analysis was far superior to our existing software. Upon becoming a FMS customer, we had a few bumps along the way. With 80 plus stores and many integrated systems the roll out on the General Ledger side took longer than anticipated. However, the installation team was very knowledgeable and very quick to adapt solutions to our complex environment.

How has FMS increased your efficiency and profitability?

Our Retail Operations Team utilizes the FMS Dashboard Reports to drill down into their period operating statements, which gives them the ability to react quicker in making changes as a result of having the information more accessible.

“FMS was honored to work with the Homeland team during their transition to an employee owned company. Al and his team were and continue to be an integral part of the success of our relationship.”

Bob Graybill, President / CEO FMS

FMS Commitment to Service:

Jon Cline contacts me every time they have a significant software upgrade with system downtime to ensure that we do not have any scheduling conflicts. Mark Dorsey is always an invaluable resource for questions about the system and is quick to share how we can utilize the FMS software to maximize our investment.
